

EVO VAN ACCESSORIES

EVO FINDING SOLUTIONS TO ASSIST YOU

LADDER RACK SECURING CLAMPS

New clamping solution with built in lock. Will hold up to two ladders. Easy and fast to use, it's in fact 5 times faster than the traditional screw clamp type detailed below. Single handed operation. (Patent Pending 1Q2010)

Low Cost clamping solution requires separate padlock for security. Will hold up to two ladder systems.

Decision Making Information for Fleet Managers & Operators

1. Clamping device should only be applied to vehicles where operator access to the roof clamp is easy and safe.
2. Test you chosen solution at work, before you commit to your whole fleet.
3. Remember, all external equipment must be properly secured, and therefore all vehicle operatives should be made aware of their responsibilities.
4. Provide details of your vehicle operating height, with roof load in place, suggest sticker to windscreen top.

Easy to adjust roof bar guides

Ratchet Straps
