EVO BEST IN CLASS EQUIPMENT

VW Caddy Maxi Life

**Safety Ladder
Management System**

“stop tip toeing about, stand your ground firmly” when managing ladders on your Caddy

This truly unique ladder management system from the USA is engineered to provide the user with a safe mechanism for the loading and unloading of ladders. The system is activated by a swinging arm (that when in the travel position acts as a secure load lock) that is easy to use, the load frame lifts and delivers the load to the side of the vehicle. Nearside and Offside solutions are available, and they are engineered differently.

This solution is ideal for people working in public areas, or in confined parking spaces on the public highway..

EVO are an Accredited VW Group Vehicle Conversion Centre – Appointed Feb 2009

Reference 1173

**EVO ACCESSORIES
available for most
popular van makes
and models**

This unique high quality ladder storage system provides the operative with a safe and easy to use ladder management system. The system is mounted on specifically designed mounts for the VW Caddy.

The system investment will be returned to you through operator safety, correct management of an external vehicle load and the speed of operation to save you time.

Typical supply and fit price is £965 Plus VAT requiring 6 days for delivery and one day allowance for fitment. Fitment at EVO Production Centre, please allow for vehicle down time and costs associated with vehicle movements to and from our premises.
